

Flowerdown Retail Park, Weston-Super-Mare

Type of System: Gas Barrier

Date of Installation: February/March 2008

Size: 13,000m²

Client: Cranford (Weston) Developments Ltd

Engineer: PCS Consulting Engineers

Installation Contractor: Lainton Services Ltd

Gas Barrier System:

Alderburgh Ltd provided a gas barrier system using a number of different products.

Alderprufe GRM was used below the slab, to protect the buildings from gas penetration from the ground, specifically CO₂ and Radon.

Aldercourse GRA gas DPC was used in the load-bearing walls, and pre-formed column cloaks and pipe collars were used to link the system together.
