

Travelodge, Northwich

Type of System: Stormwater Attenuation

Date of Installation: 2011

Tank Size: 71m³

Site Details:

Alderburgh provided a 71m³ VersaVoid attenuation tank, designed by Environmental Sustainable Solutions Ltd in conjunction with JPG Leeds, and installed by Solutek Environmental. This meant all three Alderburgh group companies worked together to provide an outstanding service.

Marshall Building Contractors' Surveyor, Contracts Manager and Site Manager, rated Solutek "an excellent subcontractor... no issues and very helpful", and submitted to their colleagues that were "definitely to be used again".
